2023 Calendar

Features aerial photography from around the state along with did you know facts about Montana.

This calendar was launched as a fundraiser aimed at growing STEM awareness and programs in Montana. STEM stands for Science, Technology, Engineering, and Math which aims to develop youth skills in these areas. We have spoken to grade school kids, high school kids, youth camps, service clubs, community chambers, career fairs, and more. Why? We believe in giving back to all students to understand possible careers and providing knowledge to adults to educate them about developing STEM industries.
